

Deploy next-generation Metro Ethernet services with these features:

- MPLS/VPLS at 50% off part number C8484
- Multiple Streams at 50% off part number C8483
- IP Video at 50% off part number CIPTV
- TCP/UDP at 50% off part number CTCPC

This offer applies to part numbers C8484, C8483, CIPTV, and CTCPC.

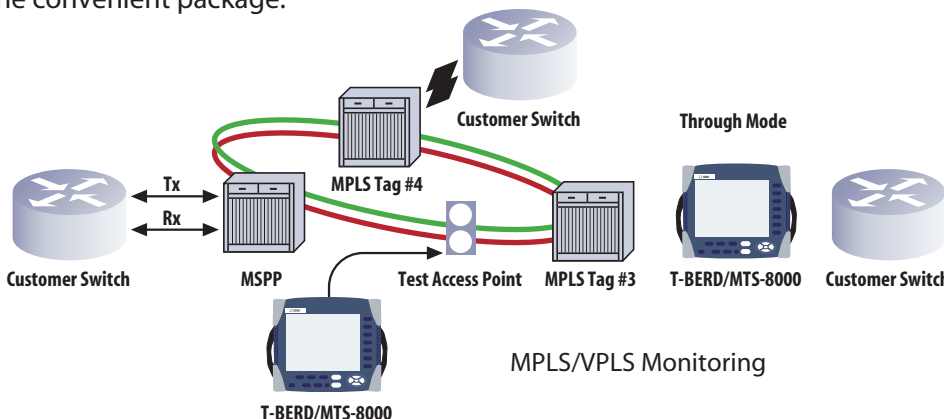

Applications/Benefits include:

- Enable mobile backhaul installation and maintenance with the Multiple Streams option
- Drive revenue by enabling new IP Video services
- Emulate the customer experience by simulating TCP/HTTP and FTP throughput measurements
- Deploy and maintain next-generation Ethernet networks with MPLS and VPLS capability

Enable the Next-Generation Triple-Play Network with the T-BERD®/MTS-8000 Transport Module

Ensure the successful deployment of your triple-play network and services with our suite of advanced Ethernet test features. Applications include the verification of Video QoS with the JDSU IPTV test option for next-generation MPLS/VPLS-enabled networks.

The T-BERD/MTS-8000 Transport Module is the only test solution available that combines T1/E1-10G SONET/SDH, 10/100/Gig Ethernet, 10Gig Ethernet LAN/WAN PHY, IP, TCP/UDP, Fibre Channel, Jitter, Wander, and OTN technologies in one convenient package.

This is a limited time offer. All orders must be booked by June 30, 2008. Contact your JDSU Sales Engineer for additional information and product availability.
