

Meet Your New Job Manager

A VIAVI software option that empowers you to deploy test plan procedures to technicians to simplify and automate your network tests. Job Manager is part of the StrataSync™ Test Process Automation Suite.

VS

A Better Way

Automated Tasks

- 1 Create test plan on VIAVI website
- 2 Load to test instrument
- 3 Run tests
- 4 Create a single, consolidated report

The VIAVI Job Manager

Job Manager works with VIAVI multi-platform field testers including the T-BERD/MTS-2000, -4000, -5800, -5800-100G, -5882, SmartOTDR, Network and Service Companion, OneExpert, OneAdvisor-800, -1000, MAP-2100, and SmartClass 4800.

Using these handy features:

- ✓ Easily create jobs with multiple tests via VIAVI website
- ✓ No need to type in settings on job site
- ✓ Step-by-step checklist with all labels and ports included
- ✓ Single, easy-to-read summary report
- ✓ Make every tech an expert just by following your automated plan

- Summarize reports
- Ensure specs
- Reduce Typing
- Speed up testing
