

Enterprise Full Implementation

For the best, most comprehensive installation of your powerful performance management solutions, choose the Enterprise Full Implementation Consulting package. This all-inclusive service offers integration and configuration along with custom reports, deep-level application review with mapping and flow analysis, staff training, and more.

Did You Know:

Companies that take advantage of Viavi Solutions® Consulting use twice as many performance management features on average

Enable faster time to value and ensure a smooth transition to your new solutions. Consultants are specially trained to tailor your configuration to your organization's business goals. Experts guide the process to efficiently educate service delivery teams with transfer of new feature knowledge and best practices methodology.

How It Works

With this service, the Viavi consultant becomes aligned with your service delivery team over an extended period of time through multiple on-site sessions to ensure your program's short- and long-term success. Organizational goals will be documented, implementation plans will be created, and the configuration will be completed to your specifications. The initial service is up to 3 days. There is also a 2-day recap 30 days after your implementation to review the system, answer questions, and provide any additional training you may need.

Relates to the Viavi Observer® Analyzer, Observer GigaStor®, Observer Apex™, Observer Management Server (OMS), Observer Infrastructure (OI), and Observer Matrix
