Quick Card

**FiberChek™ Probe Microscope**

**Updating Firmware with FiberChekPRO™**

This quick card describes how to update FiberChek Probe Microscope firmware with VIAVI FiberChek PRO software.

**Equipment Requirements:**
- FiberChek Probe Fiber Inspection Microscope
- Personal Computer (PC) or Laptop
- FiberChekPRO software version 2.1 or greater (download at [http://fcpro.updatemyunit.net/](http://fcpro.updatemyunit.net/))

**Firmware Update Instructions:**

1. Press the **Power Button** to turn on the FiberChek Probe Microscope.
2. Enable a Wi-Fi connection as follows:
   - Tap the FiberChek Probe **Touchscreen Display** to enter the **Settings** menu.
   - Use the **Navigation control** or touch the arrows on the screen to highlight **Radio Settings** and press the **Action Button**.
   - Use the **Navigation control** button or touch the arrows to highlight **Wi-Fi Enable** and press the **Action button**.
   - Press the **Return button** or press the **Trigger** to return to the Live Inspection screen. A Wi-Fi icon will appear at the top of the screen.
3. Connect the FiberChek Probe microscope to the PC or Laptop via Wi-Fi as follows:
   - Enable Wi-Fi on the Laptop or PC.
   - Look for the FiberChek SSID and select **Connect**.
4. Click the **FiberChekPRO** icon in the Windows® Start menu on your PC or laptop to launch FiberChekPRO.
5. The FiberChekPRO software will identify the connected FiberChek Probe device. If new firmware is available, a screen will be displayed with instructions to perform the update. Press the OK button.

6. Click the "Setup" option in the top right corner of the screen and select the 2nd option: FiberChek...

7. The FiberChek Setup screen will be displayed. Select the Firmware option and click on the "Update Firmware..." button.

8. A window will be displayed indicating that the firmware update process was started.

9. After a few seconds, a window will be displayed with instructions to complete the update.

10. Click OK to complete the update and reboot the FiberChek Probe Microscope.

11. The FiberChek Probe Microscope is ready to be used with the latest firmware revision.
