

Quick Card

P5000i Fiber Microscope Syncing to StrataSync™

This quick card describes how to synchronize the P5000i Fiber Microscope to the StrataSync cloud-based Asset Management System using VIAVI FiberChekPRO™ software.

Equipment Requirements:

- P5000i Fiber Inspection Microscope
- Personal Computer (PC) or Laptop
- FiberChekPRO Software version 2.1 or greater (download at <http://fcpro.updatemyunit.net/>)

Figure 1: Equipment Requirements

The following information is required to complete the procedure:

- StrataSync User Name
- StrataSync Password

Firmware Update Instructions:

1. Connect the P5000i USB Connector to a USB port on your laptop or PC.
2. Click the **FiberChekPRO** icon  in the Windows® Start menu on your PC or laptop to launch FiberChekPRO.
3. The **FiberChekPRO** software will identify the connected P5000i device. If new firmware is available, a window will be displayed with instructions to perform the update. Press the **OK** button.
