Quick Card

P5000i Fiber Microscope
Updating firmware with FiberChekPRO™

This quick card describes how to update the P5000i Fiber Microscope to the latest software revision using VIAVI FiberChekPRO software.

Equipment Requirements:
- P5000i Fiber Inspection Microscope
- Personal Computer (PC) or Laptop
- FiberChekPRO Software version 2.1 or greater (download at http://fcpro.updatemyunit.net/)

Firmware Update Instructions:

1. Connect the P5000i USB Connector to a USB port on your laptop or PC.

2. Click the FiberChekPRO icon in the Windows® Start menu on your PC or laptop to launch FiberChekPRO.

3. The FiberChekPRO software will identify the connected P5000i device. If new firmware is available, a window will be displayed with instructions to perform the update. Press the OK button.

4. Click the "Setup" option in the upper right corner of the screen and select the second option, FBP-P5000i.
5. The FBP-P5000i Setup screen will be displayed. Select the Firmware option and click on the "Update Firmware..." button.
