

Why should I buy Software & Support Maintenance (SWM)?

The Software & Support Maintenance (SWM) agreement delivers great value: you will continue to receive software updates, new features, updated PTP profiles as they are added, bug fixes (of course), updated documentation and our same customer support for technical questions or about deployments. The SWM agreement enables us to support you in the most optimal way.

For any other technical information inquiries, please contact us at qg2_support@viavisolutions.com
