OneExpert CATV – Software Update Through StrataSync

Part II – In Physical Instrument

1. Go to System -> Network and verify network is up
2. Go to System -> StrataSync
3. Verify StrataSync Account ID is loaded
4. Verify StrataSync Tech ID is correct and Alpha Numerical
5. Press “Start”
6. If a firmware update has been deployed from StrataSync, an appropriate message will appear. Click “OK” to accept the update.
7. Allow update process to complete. Unit will transition to an update screen, then power off automatically after update is complete.
