

QUICK CARD

SmartOTU Alarm Notification

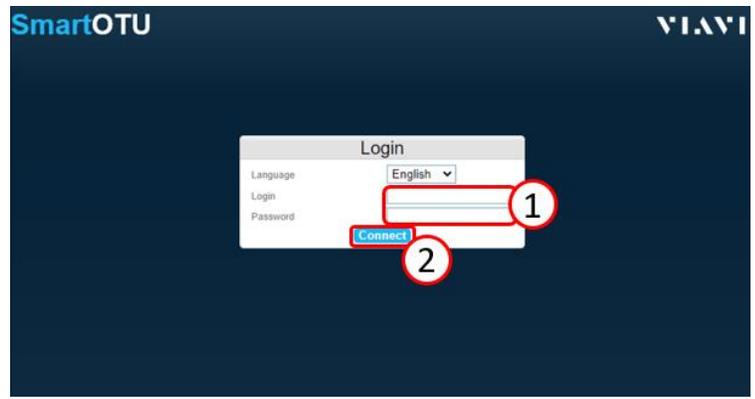

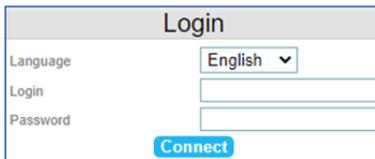

This document will show you how to add an Email or text address for alarm notification.

LOG IN

Using a web browser, navigate to the SmartOTU IP address. The Login screen will appear once connected.

1. Type in Login and Password info.

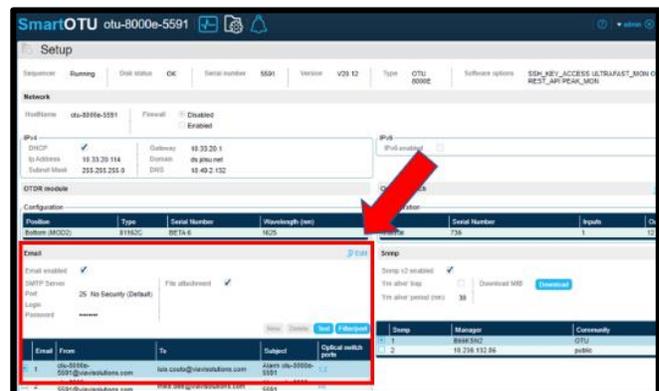

2. Tap **Connect** (Connect)

Once logged in you will be on the **Monitoring view**.

3. Tap  (Setup) icon

You are now in the **Setup view**.

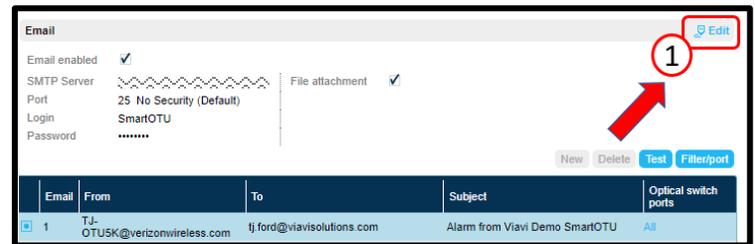

Locate the email section.

QUICK CARD

EDIT ALARM EMAIL ADDRESSES

1. Tap  (Edit) button.

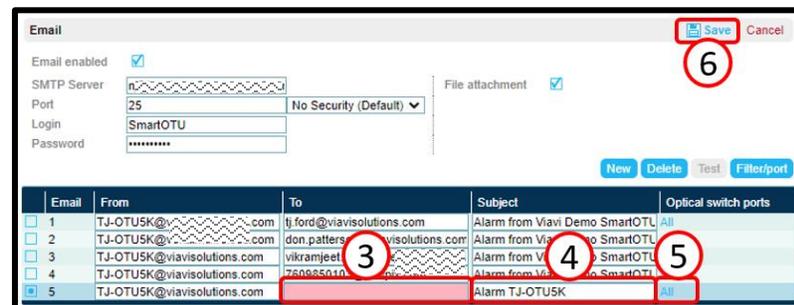

2. In the Email section, tap  (New) button. You will see a new entry appear at the bottom of the email list.

3. Tap the red highlighted 'To' field. Enter email address and hit 'Tab' key on computer. For MMS delivery, use the following:

Carrier	MMS gateway domain
AT&T	[10-digit number]@mms.att.net
Boost Mobile	[10-digit number]@myboostmobile.com
Cricket Wireless	[10-digit number]@mms.cricketwireless.net
Google Fi	[10-digit number]@msg.fi.google.com
Straight Talk	[10-digit number]@mypixmessages.com
T-Mobile	[10-digit number]@tmomail.net
Tracfone	[10-digit number]@mms5.tracfone.com
U.S. Cellular	[10-digit number]@mms.uscc.net
Verizon	[10-digit number]@vzwpix.com

4. Type in what you want the subject line to read.
 5. Select if you want all fiber alarms to be sent to the above email. Default is ALL, but you can choose which fibers you want to be notified on.
 6. Tap  (Save) to save info.

QUICK CARD

VERIFY ALARM EMAIL DELIVERY

7. To the left of the new email entry is a check box. Tap the box to add tick.

8. Tap the **Test** (Test) button. A popup message will appear telling you to check your email inbox.

Info

Test sending email to selected contact
tj.ford@viasolutions.com. Check your email inbox.

Ok
