

Viavi Solutions Career Fair

Saturday September 16, 2017 10am to 2pm

We are Hiring Manufacturing and Production Roles Across All Shifts

Founded in 1948 as Optical Coating Laboratories (OCLI), later as JDS Uniphase (JDSU), and now as Viavi Solutions, our Optical and Performance Products (OSP) division continues the legacy of innovation in Santa Rosa and across the globe. The OSP business leverages its core technology strengths of optical coatings and materials to manage light and color effects serve to customers in consumer electronics, government, healthcare, automotive and anti-counterfeiting markets.

We will be having a job fair targeting our needs in production and manufacturing at our Santa Rosa, CA site.

Shifts available: Day, Evening, Night; including 8 hour, and 12 hour shifts.

General Description of Available Roles

The positions are responsible for supporting thin-film coating operations on various machines in areas of tooling preparation, equipment clean-up and operation, materials inspections, product processing, assembling or sub-assembling optical, electronic, mechanical or electro-mechanical devices, and operation of auxiliary equipment in a safe and quality manner. May also assist and use work instructions in the training of other technicians in a team environment comprised of manufacturing, engineering and maintenance.

Qualifications

High school diploma or GED required.
Must be shift flexible.
Must be able to read/write/speak and comprehend English with fluency.
Must pass a basic physical assessment.
Previous manufacturing experience is preferred.
Proven experience in a strong safety culture.
Ability to obtain US government security clearance a plus.
As this is an ITAR facility, it is required that all workers are US Citizens or Permanent Resident.

Opportunities available both as a Regular Full Time Employee, as well as contract to hire, depending on experience.

Where: 1402 Mariner Way, Santa Rosa, CA 95407

When: Saturday, September 16, 2017

What to Bring: Updated Resume

Be Prepared to Interview
