Home Network Testing

 	<p>Home Leakage Test Kit TRI-LKG-HL-METER-KIT</p> <p>Home Network Pressure Test [Requires software option: DSP (TRI-DSP-SW-HL-LKG-OPT) or ONX (ONX-CATV-SW-HL-LKG)]</p> <ul style="list-style-type: none"> • Ensure home installation meets shielding integrity requirements of today's high-tech networks • Enables tech to find points of intermittent failure, saving time vs trial-and-error methods • High level injected signal from transmitter allows meter to pinpoint in-home network ingress/egress points • Hand-held transmitter (138.00 MHz and 757.50 MHz, with two power level settings +40dBmV and +60dBmV) • DSP or ONX meter with leakage software option and antenna – no extra leakage detector to carry 	
	<p>SmartID Plus (Bluetooth) SIDPLUS-SID-ACTIVEID-KIT</p> <ul style="list-style-type: none"> • Cut repeat service calls by enabling quick and comprehensive coax home-network testing • SmartID Plus Provides Wireless connectivity between ONX and SmartID plus for easier wiring troubleshooting • SmartID Plus with ActiveID's allows fast and affordable outlet identification • SmartID Plus with SmartID provides end to end wire testing for frequency response and noise 	
	<p>WiFi Advisor ONX-WIFI-ADVISOR</p> <ul style="list-style-type: none"> • WiFi troubleshooting and optimization for advanced WiFi including 3x3 802.11AC • Whole-home WiFi performance mapping and throughput analysis • Improves QoE, reduces trouble calls and repeats • Reduces mean-time-to-repair • Assesses a wide range of end-user device classes • Educates customers about true performance • Enables test conformance and compliance across your entire technician workforce 	

Fiber Inspection and Test

 	<p>P5000i USB Fiber Scope FBP-P5000I</p> <p>This easy-to-use, automated fiber inspection and analysis probe provides pass/fail capability.</p> <ul style="list-style-type: none"> • Dual (200/400x) magnification • Automatic pass/fail analysis • Auto-center • Automatic report generation 	
	<p>Miniature USB Power Meters MP-60A and MP-80A</p> <p>Miniature USB 2.0 power meter measures optical power via a USB 2.0 connection</p> <ul style="list-style-type: none"> • Small form-factor design for ultimate portability • Archives and creates custom logs for all results 	

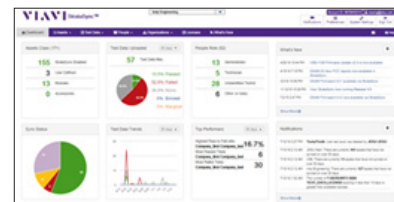

Asset and Data Management

StrataSync

Your ONX or DSP includes a powerful hosted system for tracking your instrument, configuring it and managing test data, all while ensuring technicians are conforming to company testing procedures.

- Asset, configuration, and test data management for VIAVI instruments
- Ensures all instruments have the latest software updates and options installed
- Prove proper completion of work orders – upload pictures of repairs and geolocation with test data
- Get paid faster, sync more frequently via mobile and submit results electronically via StrataSync
- Reduce insurance rates, deter meter theft by automatically disabling lost or stolen meters

Maintenance and Service

I-Stop Probe TRI-ISTOP-1000MHZ and TRI-ISTOP-1250MHZ

- Enables tracking reverse ingress to the nearest tap
- Compatible with SLMs, reverse and forward path analyzers
- Taps unused KS ports for bi-directional measurements
- Protects instruments from line power damage (up to 100 volts)
- Economical way to equip techs to track, find, and fix active ingress on live plant
