

HST3000 Disable Compatibility Flag Instructions

1. Power on the HST3000.
2. Enter any of the DSL applications (xDSL, VDSL Bonded or ADSL Bonded).
3. When the Configuring Modem.... Screen vanishes, press the Configure button.
4. Press the down arrow until entry 17-Cmptblty Flag is highlighted.
5. If the Flag is set to Off, you do not need to proceed and can use your HST as-is with no warnings.
6. If the Flag is set to On, Press Ok.
7. Press the down arrow to highlight Off (or press 2 on the keypad).

The Compatibility Flag is now disabled and the HST will no longer alert you.
